How many lives have been impacted over the last quarter? Club youth impacted over the last quarter are 120. Family numbers including siblings impacted during the past quarter are higher.

Please break down demographics of lives impacted. If not available, how are you going to work towards gathering this information? We serve youth ages 6-18. Over 68% of those children come from single parent homes or are raised by grandparents. Ninety percent of our kids are of African American descent or two or more races. Ten percent are Caucasian. A large percentage of these youth and their families live below the poverty line.

Are you on track to hit your output goals as listed above? If not, what is preventing you from reaching those output goals? YES

Please provide one (or more) inspiring story over the last quarter. This could be about your organization or a special impact story. Please include any pictures/graphics you feel necessary with your report. : **We see many youth, especially those who are part of our Power Prep program, who feel better about the educational development. These Power Prep kids look forward to meeting with our volunteer tutors. So much so, that when a tutor can't make a session for some reason, the children are asking when they will be able to meet with them again!**
