

# IMPACT REPORT

## A message from our CEO

United Way brings people together in purpose. Together, we mobilize communities to close gaps and open opportunities for everyone, everywhere. We know improving access to education, health, and family-sustaining financial stability can help all thrive.

We have deep roots in our community, driving solutions and tackling big challenges. We activate organizations and leaders in three areas; Behavioral Health, Safety and Prosperity, and Emergency and Essential Services. We to direct resources where they are most needed, quickly and efficiently. We help people live their purpose – whether by donating, volunteering, or speaking out for policies to improve our community. United Way helps people make positive, lasting change.

You may be surprised at all the ways we are making a stronger local community.

United, **we stand up for the children** that struggle to have their own voice.

United, we **face homelessness** in our community.

United, we **confront the struggles of mental health.**

United, we **combat food insecurity.**

But we don't do it alone. Our community is standing with us. Those living their purpose are working for transformational change. If you want to live more purposefully -- even with limited time or resources -- please join us in supporting our annual campaign.

We can do more United.

Sincerely,

*Angie Lazzell*

**UNITED in  
PURPOSE**

We can do more United.
